

2008 KAYAK RANGE

WWW.TEKSPORT.CO.UK

Welcome to TekSport...

TekSport has been producing a range of high quality well designed and constructed polyethylene kayaks for over 5 years. In addition, members of the manufacturing team at Rototek have been involved in kayaking both in high-level competition and as manufacturers of kayaks, for over 30 years. A team of expert designers is employed to complement the 'in-house' manufacturing expertise.

Currently Rototek manufactures a range of nine kayak models under the '**TEK**', and '**X**' brand names, with more new models planned for 2008/9.

Its recent rapid expansion into the kayak and sailing dinghy markets means that Rototek will shortly be relocating to a purpose built 57000 sq ft production unit on the outskirts of Newark. To compete in the growing marine market two new rotomoulding machines have been commissioned. These machines are amongst the largest of their type in Europe and are of the latest design with some of the most sophisticated control systems available. The mouldings that can be produced are up to 7 metres long and 3 metres in diameter.

260X-TRA

LENGTH: 260CM **WIDTH:** 60CM **WEIGHT:** 16KG **MAX USER WEIGHT:** 95KG

The X-Tra is constructed utilising a double concaved hull with integral directional channelling ensuring this kayak's versatility.

The hull configuration ensures you can track straight whilst touring around calm backwaters but equally helps to concentrate and direct the dynamic powers created whilst surfing waves to ensure you always have maximum fun balanced with full control.

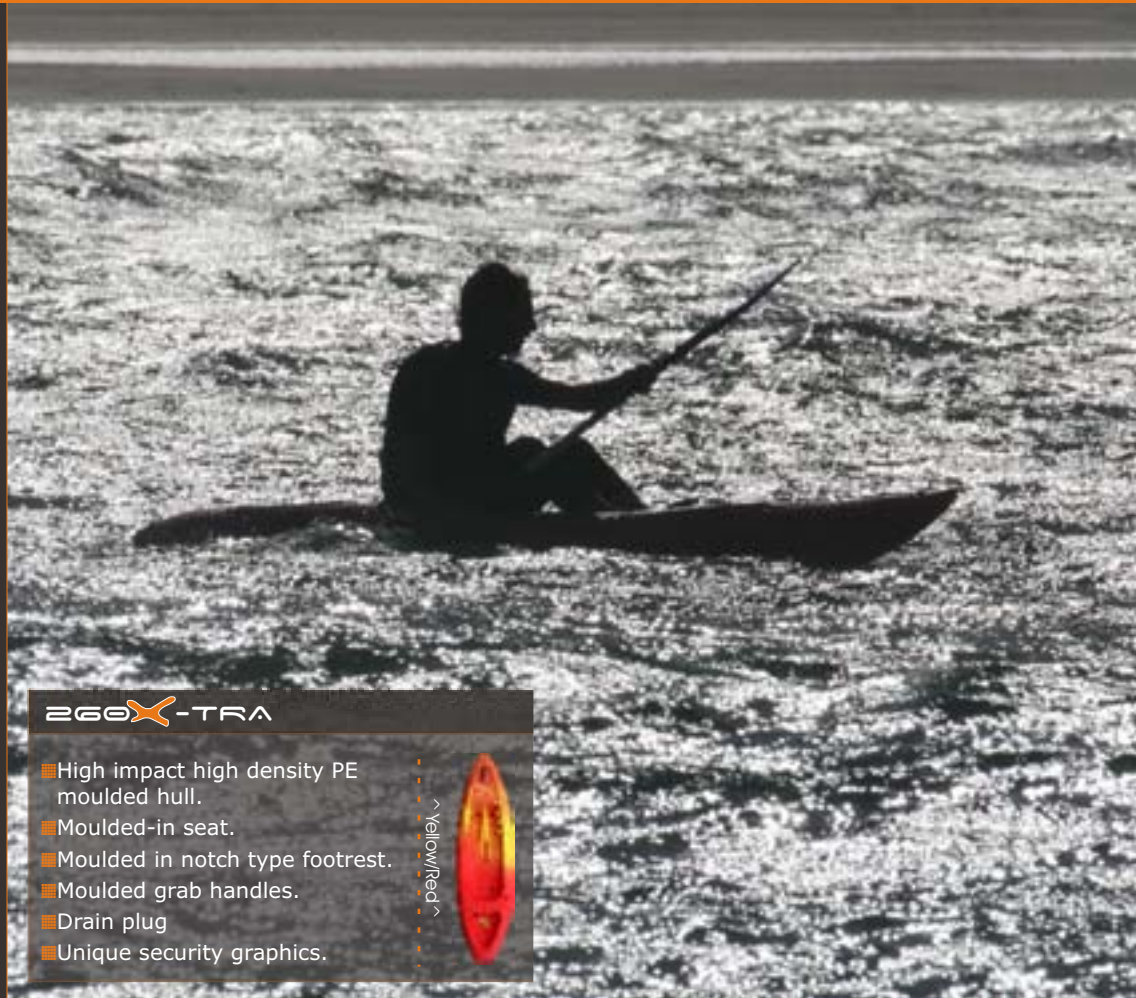

With its comfortable seating position, short length and excellent strength to weight ratio, the X-Tra is one of the most responsive sit on top's in our range, and gives an optimum ride to both adults and children alike.

Carefully positioned grab handles aid easy loading onto your car, and also ease the carry to the beach.

260X-TRA

- High impact high density PE moulded hull.
- Moulded-in seat.
- Moulded in notch type footrest.
- Moulded grab handles.
- Drain plug
- Unique security graphics.

260X-CITE

LENGTH: 260CM **WIDTH:** 60CM **WEIGHT:** 16KG **MAX USER WEIGHT:** 100KG

The X-cite is the most responsive sit-on top in our range. With its sleek shape and responsive hull - the X-cite has been designed to give you maximum fun in the water!

An ideal craft for a trip away the X-cite makes the most of the surf - designed to catch waves easily and allowing a responsive ride without compromising on stability. A comfortable seating position combined with good paddle speed and light weight construction make the X-cite a great boat for calm days exploring the coastline looking for secret spots.

Enjoyed by both adults and children, the short length and minimal weight together with built in side grab handles aid loading on your car, and ease the carry down to the beach.

Whether surfing a wave or exploring the coast, there's always an adventure on the X-cite!

260X-CITE

- High impact Mettlatek moulded hull.
- Moulded-in seat.
- Adjustable backstrap.
- Moulded in notch type footrest.
- Moulded grab handles.
- Fitted cargo net
- Water bottle
- Drain plug
- Unique security graphics.

285 X-T-SEA

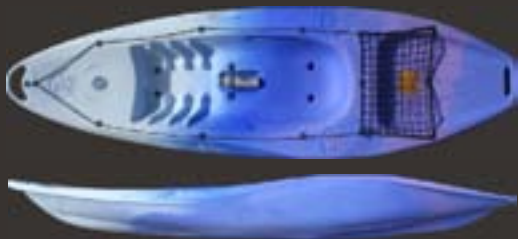

LENGTH: 285CM **WIDTH:** 80CM **WEIGHT:** 20KG **MAX USER WEIGHT:** 125KG

A picnic on the lake, meandering along a river, playing at the beach or exploring the coastline and inland waterways; at home or away the X-T-Sea is the perfect craft to enjoy all this and more.

The chined hull with a deep keel means a stable and secure ride, whilst the positive seating position ensures that the X-T-Sea is easy to paddle from your first adventure, turning positively and staying on course.

The X-T-sea is tough and durable, in spite of being light enough to remain nimble and responsive on the water.

Transportation is easy with front and rear moulded grab handles, and side carry handles. The X-T-Sea can be lifted on to roof racks and the stackable design makes for secure storage or transportation.

Model shown: 285 X-T-Sea 'Tourer'

285 X-T-SEA 'BEACH'

- High impact Mettallatek moulded hull.
- Moulded in seat.
- Moulded in notch type footrest
- Moulded grab handles
- Deck fittings and safety line
- Drain plug
- Unique security graphics.

- High impact Mettlatek moulded hull.
- Moulded in seat.
- Moulded in notch type footrest
- Moulded grab handles
- Deck fittings and safety line
- Cargo net
- Water bottle
- Drain plug
- Unique security graphics.

285X-RAY

LENGTH: 285CM **WIDTH:** 80CM **WEIGHT:** 20KG **MAX USER WEIGHT:** 125KG

Designed primarily for fishing the X-ray is a stable, comfortable craft.

Its chined hull and deep keel means that it is easy to paddle and responsive enough for flat water touring, fishing or nature watching. The watertight hatch and gear bag will hold your personal affects whilst the built in fishing rod holders will take care of your lines.

An additional paddle holder leaves your hands free for binoculars or to describe the size of the one that got away.

Easily transportable with front and rear moulded grab handles and built in side carry handles at 20 kilos and 2.85 m long the X-ray travels securely on a car roof rack.

285X-RAY

- High impact Mettallatek moulded hull.
- Moulded in seat.
- Moulded in notch type footrest
- Moulded grab handles
- Water tight hatch and gear bag
- Deck fittings and safety line

Kayak Trolley

This lightweight and adaptable trolley can be used for transporting all kinds of canoes and kayaks, - both 'sit-on' and 'sit-in'. It can also be used for moving other types of small marine craft such as windsurfers. It is very compact and strong being capable of taking a maximum load weight of 50 kgs. The trolley is extremely easy to assemble and comes complete with a 3 metre webbing strap.

240X-CESS

LENGTH: 240CM **WIDTH:** 60CM **WEIGHT:** 16KG **MAX USER WEIGHT:** 'S' = 90KG 'XS' = 95KG

Getting in to whitewater? Then the Teksport 240 X-cess is perfect for experiencing the thrills and adrenaline of whitewater paddling.

The flat hull with angled release rails makes it stable and forgiving but aids rolling, boosting confidence in beginners and intermediates. Careful volume distribution means it is easy to manoeuvre and control whilst ensuring there is still plenty of volume for river running. Master the basics then add freestyle moves to your repertoire - this boat is a sound investment for a paddler wishing to gain confidence all over the river.

Its keyhole cockpit rim aids entry and exit but still takes a standard size deck. Adjustable footrests and padding allow you to tailor your position so that you are delivering power exactly where you need it.

Model shown: 240 Xcess 'XS'
